

## **Industrial Internship Project Report**

**HINDUSTAN COCA-COLA BEVERAGES PRIVATE LIMITED**

## ACKNOWLEDGEMENT

I considered myself very lucky that I was provided with an opportunity to be a part **Hindustan coca cola beverages Pvt. Ltd.** This internship was a great chance for my learning and professional development. I am also grateful for having a chance to meet so many wonderful people and professional who led me through this internship period. This project work is the result of combined efforts of many people. I express my deep sense of gratitude to all those who have contributed to this endeavour in any way.

I would like to present my gratitude to **Mr. Pankaj Sirohi (Zonal Manager - IT Hindustan coca cola beverages Pvt. Ltd.)** for giving me their valuable inputs that helped me a lot in successful completion of my project work.

I also thank all the staff who have contributed directly and indirectly in successful completion of my training. I am also thankful to each and every employee of Hindustan coca cola beverages Pvt. Ltd. for their constant encouragement and providing friendly environment for working and also for providing the unique information about the modern technology.

## CERTIFICATE

This is certifying that, **Ms. Surbhi Pahwa**, a student of **Indraprastha College for Women, University of Delhi, Delhi** has completed the One month Industrial Internship (from 6 June 2019 to 6 July 2019) report titled “**Website for supply chain management**” and **Study & Working on various softwares used by the company** such as DMS (Desktop app), SFA (Android app), TMS (Desktop app) successfully under my supervision. To the best of my knowledge the report is an authentic work on the issue carried out at **Hindustan Coca Cola Beverages Pvt. Ltd.**. It is undertaken that to the best of my knowledge, industry interests are protected and no confidential information of the industry is being revealed in this report.

### Signature

Mr. Pankaj Sirohi

Zonal Manager - IT

## PREFACE

This industrial internship report describes the project carried out **during last 1 month full time Internship at Hindustan Coca-Cola beverages Pvt. Ltd.** The document contains information about the organization and the responsibility performed during internship throughout the period from June to July 2019. More than a plain account of responsibility the objective of this report is to reflect upon the practical knowledge and experience collected during internship from the perspective of Computer Science student.

The first part of report explains the brief about the internship company, Hindustan Coca- Cola beverages Pvt. Ltd and the overview of the sector in which company operates.

The second part of the report explains the overview of the weekly activities and experiences I had during my internship period. This includes all the technical and non-technical work I have gone through.

The Third part of report describes my internship projects I had covered which were given to me under the guidance **of Mr. Pankaj Sirohi** .

I successfully completed my project on time and I thoroughly enjoyed the challenges that came along every single day. The lessons which I have learned are remarkable for me.

I have tried to keep this report simple and technically correct. I have proof read this report several times and tried to avoid any type of mistakes. However, if you find any mistake please pardon me.

• HTML	-	HyperText Markup Language
• CSS	-	Cascading Style Sheet
• CRUD	-	Create Read Update Delete
• UI/UX	-	User Interface/User Experience
• HCCBPL	-	Hindustan Coca-Cola Beverages Private Limited

# 1 Overview of the Company

## 1.1 Coca-Cola Worldwide and in India

The Coca-Cola Company is the world's largest beverage company. Along with Coca-Cola, recognized as the world's most-valuable brand, the Company markets four of the world's top five soft drink brands, including Diet Coke, Fanta and Sprite and a wide range of other beverages, including diet and light soft drinks, water, juices and juice drinks, tea, coffee and sports drinks. Through one of the world's largest beverage distribution system, consumers in more than 200 countries enjoy the Company's beverages at a rate exceeding 1.8 billion servings each day.

One of the early investors in India, the Coca-Cola system provides direct and indirect employment to more than 1, 50,000 people. The Company has more than 2.2 million retailers and our business has a multiplier effect on employment and earning opportunities. Coca-Cola in India is one of the largest domestic buyer of certain agricultural products like sugar, mango pulp etc. The Company's business also positively impacts industries like glass, plastics, resin manufacturers, sugar, automobiles, white goods manufacturers, banking etc.

The Coca-Cola Company has always placed high value on good citizenship. At the heart of business is a mission statement called the Coca-Cola Promise - "The Coca-Cola Company exists to benefit and refresh everyone that it touches". This basic proposition entails that the Company's business should refresh the markets, protect, preserve and enhance the environment and strengthen the community. Coca-Cola in India provides extensive support for community programs across the country, with a focus on education, health and water conservation.

At the core of company's business in India, as in the rest of the world is production and distribution network, which is called the "Coca-Cola system". Globally, the Coca-Cola system includes the Company and more than 300 bottling partners. The Coca-Cola Company manufactures and sells concentrate and beverage bases. Then company's authorized bottlers combine concentrate or beverage bases as the case may be with sweetener (depending on the product), water or carbonated water to produce finished beverages. These finished beverages are packaged in authorized containers bearing company's trademarks -- such as cans, refillable glass bottles, non-refillable PET bottles and tetra packs -- and are then sold to wholesalers or retailers. In India, additionally, the Company also sells certain powdered beverage mixes such as Vitingo. The company's beverages reach ultimate consumers through customers: the grocers, small retailers, supermarkets, restaurants, convenience stores and

millions of other businesses that are the final points of distribution in the Coca-Cola system. What truly defines the Coca-Cola system, and indeed what makes it unique among businesses, is ability to create value for customers and consumers.

In India, the Coca-Cola system comprises of a wholly owned subsidiary of The Coca-Cola Company namely Coca-Cola India Pvt Ltd which manufactures and sells concentrate and beverage bases and powdered beverage mixes, a Company-owned bottling entity, namely, Hindustan Coca-Cola Beverages Pvt Ltd; thirteen licensed bottling partners of The Coca-Cola Company, who are authorized to prepare, package, sell and distribute beverages under certain specified trademarks of The Coca-Cola Company; and an extensive distribution system comprising of our customers, distributors and retailers. Coca-Cola India Private Limited sells concentrate and beverage bases to authorized bottlers who use these to produce portfolio of beverages. These authorized bottlers independently develop local markets and distribute beverages to grocers, small retailers, supermarkets, restaurants and numerous other businesses. In turn, these customers make beverages available to consumers across India.

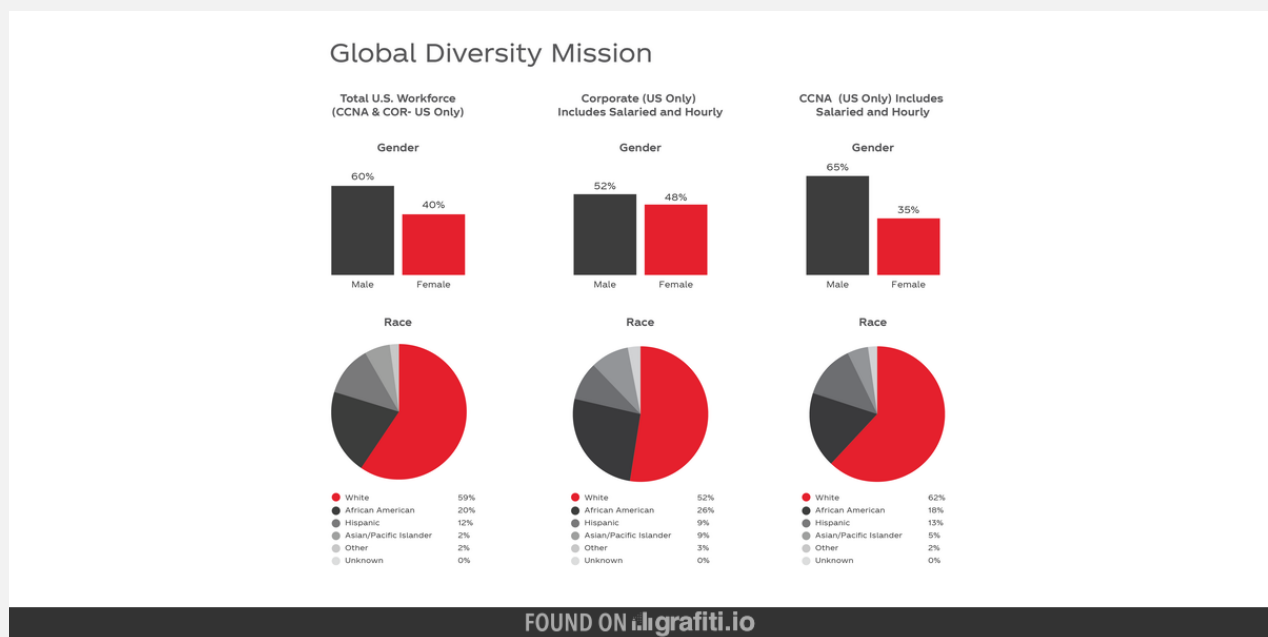

## 1.2 Company's Mission

It declares purpose as a Company and serves as the standard against which the company weighs its actions and decisions.

1. To refresh the world
2. To inspire moments of optimism and happiness.
3. To create value and make a difference.

## 1.3 Company's Values

Company's values serve as a compass for actions and describe how it behaves in the world.

Leadership	:	The courage to shape a better future
Collaboration	:	Leverage collective genius
Integrity	:	Be real
Accountability	:	If it is to be, it's up to me
Passion	:	Committed in heart and mind
Diversity	:	As inclusive as our brands
Quality	:	What we do, we do well

## 1.4 Products made by the Company

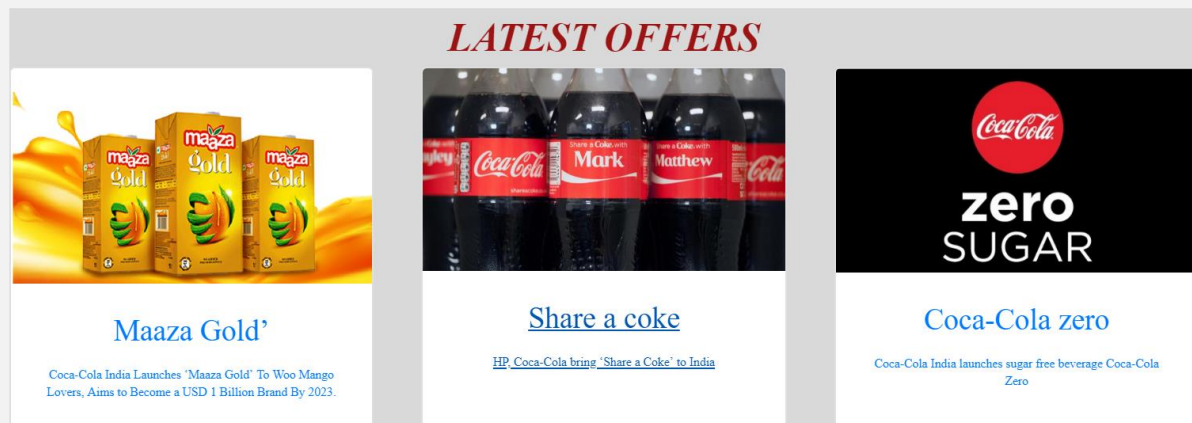

Coca cola	Kinley water
Fanta	Kinley Soda
Sprite	Maaza
Thumps Up	Minute maid Pulpy Orange
Thums Up Charge	Minute maid Colour
Limca	Minute maid Apple
Rim Zim	Minute maid Mango
Coke zero	Minute maid Mixed fruit
Diet coke	Minute maid Nimbu Fresh
Kinley Orangee	Minute maid Guavava
Kinley Lemony	Minute maid Pomegranate

## 2. Weekly Activities

<b>1st Week</b>	<ul style="list-style-type: none"> <li>• Interaction with HR</li> <li>• Joining Formalities</li> <li>• Orientation Program and overview of the Company</li> <li>• Introduction with IT Departments</li> <li>• Briefing the purpose of our visit</li> <li>• Studied the working of SFA, TMS, DMS etc.</li> </ul>
<b>2nd Week</b>	<ul style="list-style-type: none"> <li>• Allocation of project</li> <li>• Discussion about the project</li> <li>• Background study</li> <li>• Requirements gathering</li> <li>• Layout of project</li> <li>• User Interface design</li> </ul>
<b>3rd Week</b>	<ul style="list-style-type: none"> <li>• Implementation of front-end using HTML, CSS,BOOTSTRAP and JavaScript</li> <li>• Checked for Responsive design</li> <li>• Implementation of API's using JavaScript</li> <li>• Created a database on firebase</li> </ul>
<b>4th Week</b>	<ul style="list-style-type: none"> <li>• Tested for responsiveness and functionality</li> <li>• Tested for User Experience</li> <li>• Internship report preparation</li> <li>• Submitted the final report at the organization</li> <li>• Exit formalities</li> <li>• Collection of completion certificate</li> </ul>

## ABOUT COCA-COLA

Who We Are: The Coca-Cola Company

  
 We are a total beverage company

We are Coca-Cola and so much more.  
 Coca-Cola may be one of the world's most familiar companies, but we make more than our name suggests. We're an organic tea company. A premium juice company. A coconut water company. And much more.

[Read more](#)

Before: 1956 Vendo 44 Vending Machine  
 This is the original machine before it went to restorer Terry Kimble of Remember When Collectibles.

Our way forward: Taking action and Expanding choice.  
 — Journey Staff Coca-Cola journey

[Read more](#)

We must grow with conscience and therefore become a total beverage company that grows the right way.  
 — James Quincey Twitter

After: Fully Restored Vendo Machine  
 Restored Coca-Cola vending machines are presented as trophy's to the winners of The Coca-Cola 600 and the TOUR Championship by Coca-Cola.

Innovation  
 Where exception becomes the New rule.

## 4. Front-end Implementation

The User Interface is designed using HTML5, CSS, Javascript and bootstrap. Responsive design for frontend development of this application was adopted which makes the view look good on all devices and uses only HTML and CSS and is not a program or a JavaScript. For this we use meta viewport tag to control the width and scaling of the browser's viewport as Media queries are simple filters that can be applied to CSS styles.

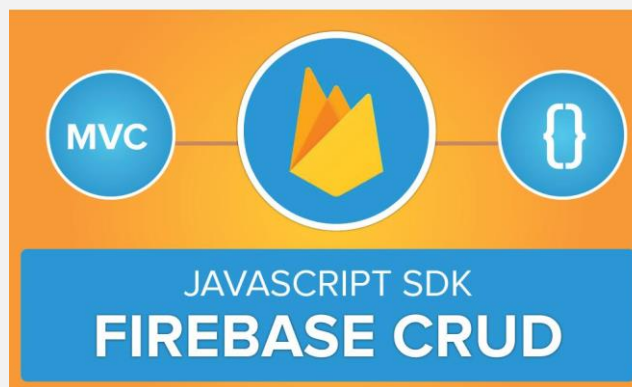

## 5. Backend-end Implementation (API's)

To establish servers Firebase Hosting has been used and to design the schema and collections for storing the information Firebase database by google is used.

The Firebase Realtime Database is a cloud-hosted database. Data is stored as JSON and synchronized in realtime to every connected client. All of your clients share one Realtime Database instance and automatically receive updates with the newest data when i developed cross-platform application with iOS, JavaScript SDKs.

Firebase Hosting is production-grade web content hosting for developers. With a single command, you can quickly deploy web apps and serve both static and dynamic content to a global content delivery network.

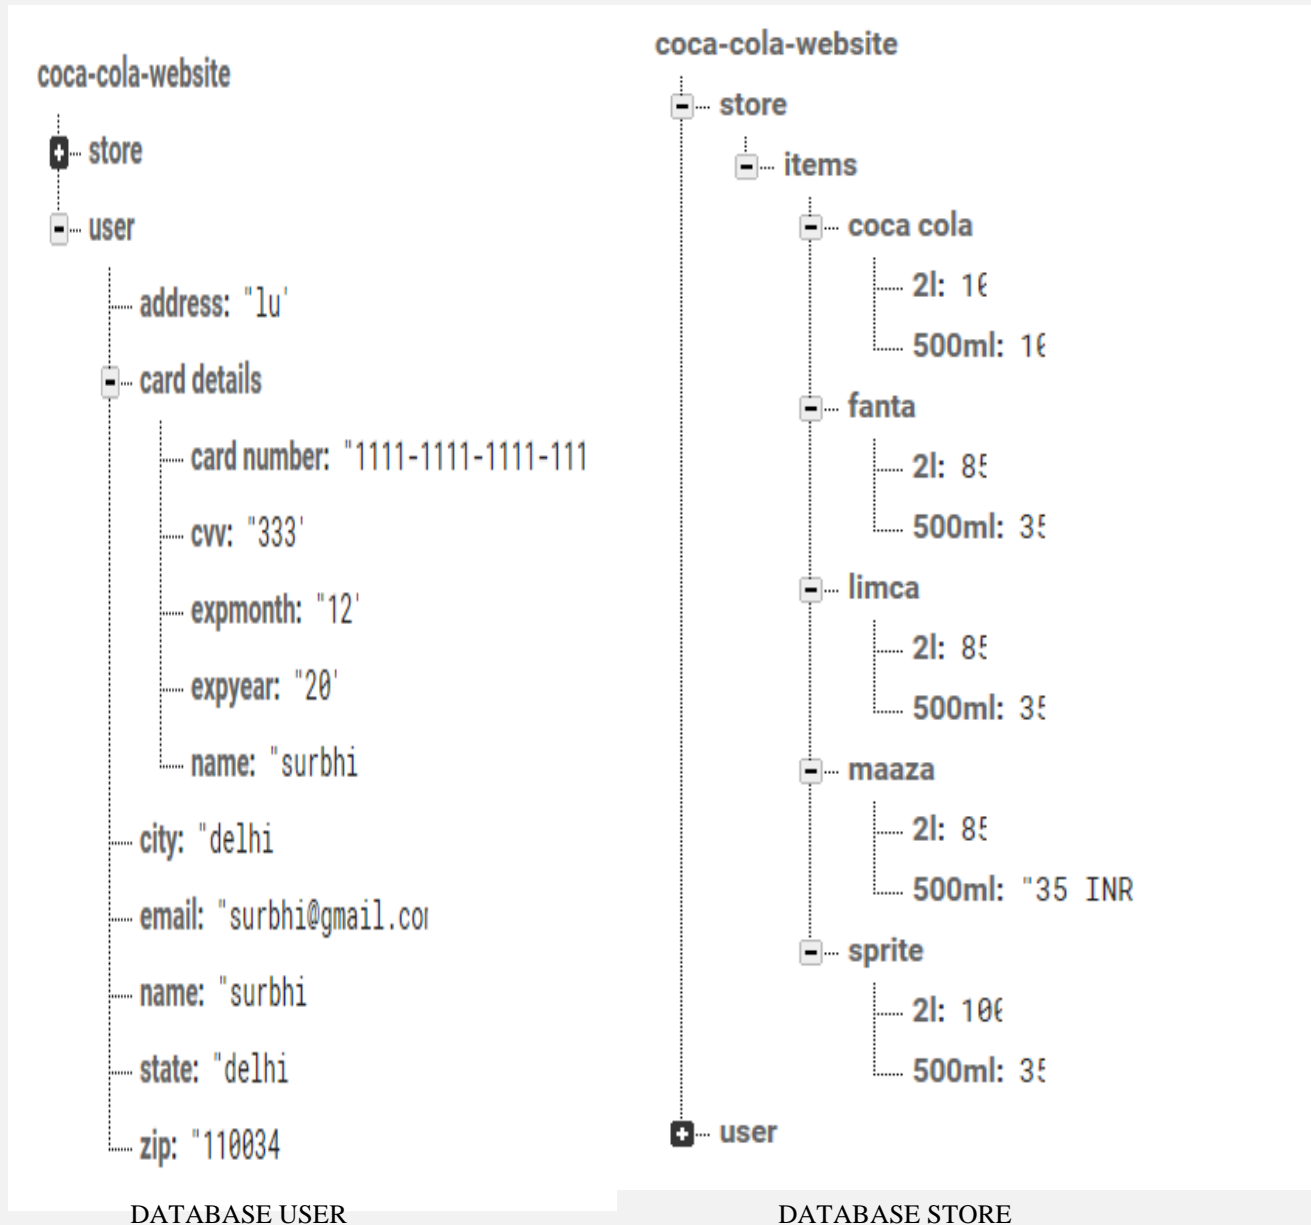

### 5.1 Firebase Connectivity

```
var firebaseConfig = {  
  apiKey: "AIzaSyD1Vbx0hG_FwLVUn1Pm5D_TtnsvPqCnwmI",  
  authDomain: "coca-cola-website.firebaseio.com",  
  databaseURL: "https://coca-cola-website.firebaseio.com",  
  projectId: "coca-cola-website",  
  storageBucket: "coca-cola-website.appspot.com",  
  messagingSenderId: "188421422677",  
  appId: "1:188421422677:web:61507da6a2c1a609"  
};
```

## 6. Database Structure

Unlike SQL, Firebase is not a relational database and its structure is not tabular. Instead, Firebase data is stored in JSON, which has a nested structure and can be represented using a tree. The Data dashboard in your Firebase dashboard is simply a visual representation of your JSON database tree.

## 7. Functionalities

No.	Customer Module	No.	Admin Module
1	Visit site	1	Visit site
2	Select Product	2	Add Product
3	Add to Cart	3	Remove Product
4	Purchase Item	4	Cancel Order
5	Select/Add Payment modes	5	Update Store
6	Select/Add Address		
7	Cancel order		

## 8. Advantages of a website

- 1. Improve Your Advertising Effectiveness**
- 2. Save Money on Printing and Distribution Costs**
- 3. Easy Access to New Customers**
- 4. Easy to Use and Update**
- 5. Improve Productivity**
- 6. Educate Your Customers**
- 7. Expand Your Market**
- 8. Extend Your Local Reach**

## 9. Different modes of order taking

In any organization across industries, taking orders is an important task at some level of the business process. Order taking is a process of recording orders accurately, securing the recorded data and delivering the same. The buyers prefer to place orders by talking to a person on phone, place live order with the sales executive of the organization or even place order on their own with the help of a mobile application.

### **SFA**

Sales Force Automation is a technique of using software to automate the business tasks of sales, including order processing, contact management, information sharing, inventory monitoring and control, order tracking, customer management, sales forecast analysis and employee performance evaluation.

### **TELCELL**

An order taking call center gives your customers the quick answers they are looking for and allows them to place their orders at their convenience. In addition to providing customers the convenience of order over the phone whenever they would like, in addition order taking call center service provides the legitimacy of operation and helps improve professional image of the company as if consumers are unable to reach a company by phone, they often deduce that the company is too small to service their needs or that the organization isn't operating legitimately.

Not every customer wants to order online; others may not have that ability so by providing order taking call center, business will be able to capture these sales over the phone.

### **WEBSITE**

We should provide a simple, easy to navigate application for customers who prefer using their laptop and mobile devices beyond providing better services. This leads to Take Away the Rush, No need to Hold, Greatly Reduces Order Errors, Create Greater Customer Loyalty, Increase Orders, Better Customer Satisfaction, Expanded Services etc.

## 10. 3-tier Architecture

This project follows 3-tier client-server architecture.

In this functional process logic, data access, computer data storage and user interface are developed and maintained as independent modules on separate platforms. This allows any one of the three tiers to be upgraded or replaced independently.

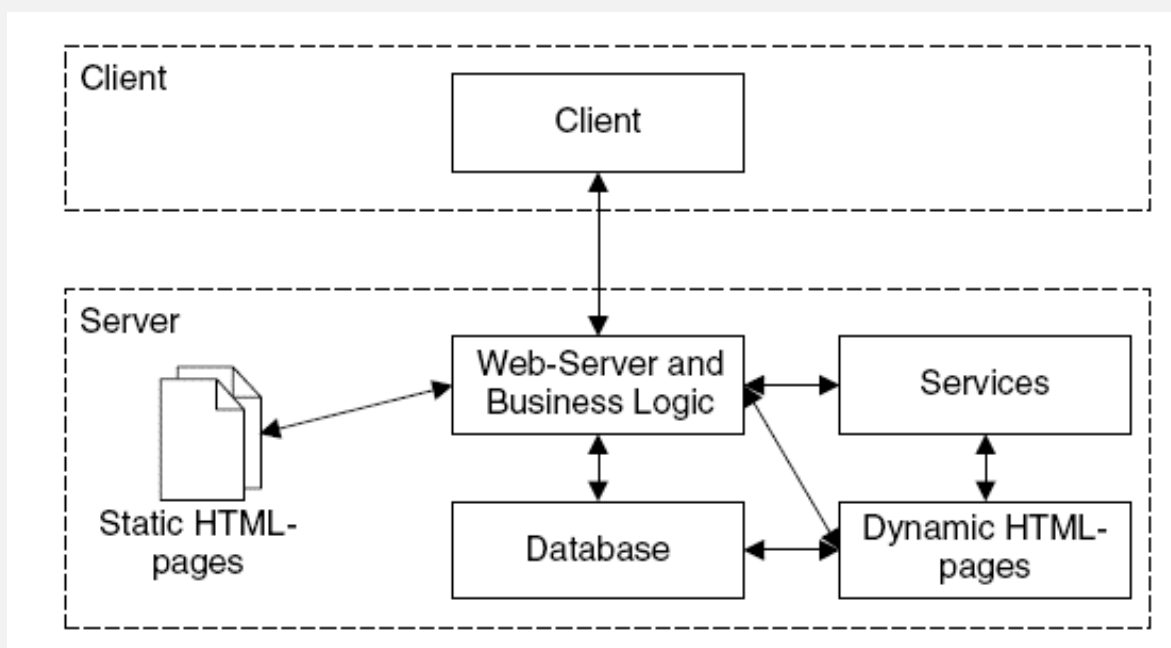

The GUI was implemented on a desktop PC with different modules running on the application server.

The Firebase Realtime Database is a cloud-hosted NoSQL database that helps store and sync data between your users and contains the computer data storage logic. Data is stored as JSON and synchronized in realtime to every connected client.

1. **PRESENTATION TIER:** Displays information related to services available on a application. This tier communicates with other tiers by sending results to the browser and other tiers in the network. It consist of all the files in the project containing HTML, CSS and Javascript which are used for graphical user interface.

2. **APPLICATION TIER:** Also called the business logic or logic tier, this tier is pulled from the presentation tier. It controls application functionality by performing detailed processing which is done by firebase libraries used in the projects as firebase kits. In addition, to connect the UI with the database various API's are used as in the Javascript files in the project. In order to securely build a connection we need to provide apiKey, authDomain, databaseURL, projectId, storageBucket, messagingSenderId, appld to the firebase authentication channel which verifies and allow the data transfer.

3. **DATA TIER:** Houses database servers where information is stored and retrieved. Data in this tier is kept independent of application servers or business logic and that is the firebase database which stores all the dynamic data and provide the project with realtime data updates.

## 11. Conclusion

The Coca-Cola Company is the world's largest beverage company. Along with Coca-Cola, recognized as the world's most-valuable brand, the company markets four of the world's top five soft drink brands, including Diet Coke, Fanta and Sprite and a wide range of other beverages, including water, juices and juice drinks, tea, coffee and sports drinks. Through one of the world's largest beverage distribution system, consumers in more than 200 countries enjoy The Coca-Cola Company's Beverages at a rate exceeding 1.6 billion serving each day.

Coca-Cola in India is the country's leading beverages Company with an unmatched portfolio of beverages. I am privileged to have undergone training in this in company. It was a great learning experience in IT division as well as from all the members.

The HCCBPL follows policies to maintain proper documentation on the softwares being developed for better understanding, world class IT infrastructure and being eco-friendly simultaneously.

This training provided me an opportunity to learn various aspects of a IT in food industry such as use of technology in automating Sales force and supply chain management and to get the business analysis of the products, and feedback for consumer satisfaction. This also provides an opportunity to develop confidence about work capacity and gave valuable knowledge about the technical and non-technical aspect of the industry.

This internship was definitely beneficial for me and I am very grateful and thankful that I got to experience and learn various things.

shipping method and carrier that was selected to return,

```

Returns are processed within 5-7 business days after your item(s) are delivered to our Distribution Center. Depending on the your return package may take several days to reach us. Please hold on to your return tracking number for your records.

Once your return has been processed, you will be issued store credit which will be sent to the email used to purchase your order.

During holidays and times of high volume, returns are subject to delays.

Are taxes included in the price stated?

No worries! Prices stated are inclusive of GST, we will not charge any additional taxes .

Do you deliver on weekends or at night?

Yes we do deliver on Saturdays, between 10am to 3pm (Sundays are family time!) Do note that there is an extra charge of 10 for Saturday delivery.

We also deliver in the evenings, between 6:00pm to 9:00pm, with an extra charge of 10.
